

## HyperZen Training Free Download [pack]

Download ->->-> <http://bit.ly/2NFN9oK>

### About This Game

Experimental minimalist game with a special graphical mechanic.

The whole experience is supposed to let you focus on your targets. Allowing you to improve your skills without artifices.

The gameplay is really about fast paced old FPS but with smaller targets and some kind of puzzle to understand and challenge the graphical mechanic.

Levels are mostly maze generated with procedural generation.
